

Winterton Community Academy

An 11-16 comprehensive school which is small in size but big on impact and ambition.

Everything we do is underlined by our ethos 'Personal success for all through high quality learning' and on a daily basis we are 'Driven by the belief that we will be Outstanding'.

We are a school of 550 in the semi-rural location of Winterton, catering for a wide range of students of differing abilities and backgrounds. We offer a broad and balanced curriculum catering for all students' individual needs. Our classrooms are vibrant learning spaces and our teaching staff are committed to every student's progress throughout the school.

Whilst developing the whole child and preparing them for life beyond school we also celebrate consistently strong examination results showing the impact of what you we do. This includes strength in Maths, English and Science (and especially Physics).

We have a proven track record of training teachers to the highest standards. Many of whom have gone on to have successful careers both in our school and also in the locality. We also run successful training programmes for our own staff development showing our commitment to continual professional development for all.

We work closely with other schools and colleges within North Lincolnshire Education Consortium to continue to develop our already very strong practice and to share our strengths to support other schools.

You will find our students polite, engaging, well behaved and eager to learn in a variety of different ways. You will find our staff equally engaging and willing to help in any and all matters of school life as we all have a responsibility to ensure our trainee teachers are prepared for this challenging yet very rewarding career. You will find training here a truly fulfilling experience.

Please have a good look at our website for a greater understanding of what we are about and what we do. Visit the news pages and the gallery to see the students 'in action'. Follow us on Twitter or Like us on Facebook to see the regular updates we give our parents and students and please do not hesitate to contact the school for any further information.
